**Georgia EPD Launches New Project WET Website**

The Georgia Environmental Protection Division (EPD) has announced the launch of a redesigned website for Project WET. Project WET's goal is to facilitate and promote awareness, appreciation, knowledge, and stewardship of water resources through the development and dissemination of classroom-ready teaching aids and through the establishment of state and internationally sponsored Project WET programs.

The new website's homepage welcomes visitors with a clean uncluttered design. It features content focused on Project Wet's mission to work with Teachers K-12 for Water Education. Project WET is housed in the EPD Watershed Protection Branch's Nonpoint Source Program.

We hope you will enjoy browsing the new site, which can be found at [www.projectwet.georgia.gov](http://www.projectwet.georgia.gov).
